

Poznań, 27-28.04.2017

1st International Conference on Finance and Economic Policy (ICOFEP)

Security of financial systems and economic policies in Europe and USA: changes and challenges

Poznań University of Economics and Business
Faculty of Economics

The main aim of the conference is to share knowledge and expertise in the wide areas of financial and monetary systems, money, financial supervision, regulation and economic policy both by academics and practitioners from emerging and developed economies. The scope of this conference are challenges that financial systems worldwide have to face and changes occurring within these systems and in their environment. Our focus is on the US and European security of financial systems and economic policies. Main topics include, but are not limited to:

1. new tendencies in regulation and supervision of financial systems,
2. institutional changes in the financial systems of the EU countries,
3. universal and specialized financial systems – comparative analysis,
4. financialization and its consequences for financial stability,
5. macroeconomic determinants of monetary and financial systems,
6. fiscal frameworks of financial systems,
7. contemporary macroeconomic policy,
8. payment systems.
